

- 1) Rent increase to EU850 from 2022. Maybe the extra EU50 should be added to the monthly bank transfer
- 2) Rent holiday when I am away for any period of a month or more (not for any shorter trips). But no more than 2 months of rent holiday in any winter period (so if I go away for 3 months, I would pay you for one of those months when I'm away). I propose that applies even now with the works problems if I choose to go away for a longer time.
- 3) I will purchase the higher capacity air purifier for EU250 - my experience in Seville definitely indicates that the absence of the building dust improves my eyes, allergies, and ability to sleep well.
- 4) I've sent you a letter you might want to send to the council. It blames me for everything and makes you the owner just asking for some help. It might work, but it's your choice if you want to send at all or change in any way.
- 5) There are a few things in the apartment that should be looked at - but none are urgent and the doors should definitely wait until there is no dust around!
